

GREEN = Safe Inside Margins (do not put important text or graphics beyond this point)

RED = Bleed or Edge-to-Edge printing (any background colors or photos need to extend to the red edges).

**** DO NOT LEAVE A WHITE OR BLANK BLEED which will cause unsightly white edges that will look like a printing or trimming error when it's actually a file error ****

Dashed = 3.5 x 2 Trim Size
(no important text or graphics
should be between the **green**
and **grey** area)
